

Ecommerce Web Application - Test Plan (Manual Testing)

1. Introduction

This document describes the test strategy and scope for the Ecommerce Web Application.

2. Objective

To ensure all major functionalities such as Login, Product Listing, Cart, and Checkout work as expected.

3. Scope

In Scope:

- Functional Testing
- UI Testing
- Regression Testing
- API Testing (basic)

Out of Scope:

- Load Testing
- Security Testing

4. Test Approach

- Test cases created in Excel format
- Bugs tracked in JIRA-style defect sheet
- API tested using Postman

5. Entry Criteria

- Requirements available
- Test environment ready

6. Exit Criteria

- All test cases executed
- Critical bugs fixed

7. Risks

- Payment failure issues
- Browser compatibility issues
